PAST Administration Guidelines

	Sections 1-14
Mastery	5+
Below Mastery	0-4

If the student scores **Below Mastery** for the suggested starting section, administer the previous section 1 or 4 then work forward until the student is Below Mastery in 2 sections in a row. If the student scores 0 on three consecutive questions within a section stop and move to the next section.

If the student scores at **Mastery** for the suggested starting section, administer the following sections in order until the student scores within the Below Mastery range in 2 sections.

Important consideration: Some students who are successful at the phoneme level may find going back to the syllable level or word level confusing.
